PROFESSIONAL SUMMARY

I approach product management like a film director bringing a complex vision to life. With a strong engineering foundation and a deep passion for B2C products, I thrive in high-ambiguity environments where 'zero-to-one' execution is paramount. My true superpower is a practical 'common sense' filter that prevents early-stage feature bloat while preserving the core creative vision. I have a proven track record of launching first-to-market products that industry veterans quickly scramble to copy. As a founding PM, I love wearing multiple hats and taking full ownership over the product lifecycle, blending analytical rigor with out-of-the-box ideation to turn ambitious founder visions into scalable, revenue-driving realities.

CORE STRENGTHS

Practical 'Common Sense' Filter

Prevents early-stage feature bloat while preserving the core creative vision. Grounds ambitious ideas in viable, real-world solutions.

Zero-to-One Execution

Defines, designs and launches first-to-market products from scratch, owning the full lifecycle from problem definition to go-to-market.

Wearing Multiple Hats

Blends analytical rigor with out-of-the-box ideation — acting as the visionary hub that aligns teams and turns founder vision into revenue.

EXPERIENCE

Product Manager
Selectel

Jan 2022 – Aug 2024

Owned full product lifecycle for a portfolio of 5 products serving 25K+ users — covering the full journey from discovery and requirements definition to launch, KPI tracking and post-launch iteration.

- Launched a first-to-market product from scratch (problem definition, solution design, pricing), driving **7% revenue growth** within 6 months
- Designed a "Backup Now" flow removing the key setup friction point — **+5% revenue** and eliminated related support complaints
- Proposed a hardware repricing strategy that reduced costs and **grew cloud revenue by 2%**, shipped within one sprint
- Led **20+ structured customer interviews** + competitor analysis; built SQL/Python/Qlik dashboards to translate insights into prioritised epics
- Validated product hypotheses through A/B testing — shipped a feature with **9% user adoption** post-release
- Coordinated across Engineering, UX, QA, Marketing, Sales, Legal and Support to define trade-offs, align stakeholders and execute end-to-end product launches

Marketing & Data Analytics Assistant
Forvis Mazars

Sep 2025 – Feb 2026

Built and automated multi-team tracking systems and workflows across global teams.

- Sole owner of a Monday.com campaign tracking system giving **3 global teams real-time visibility**, eliminating manual reporting
- Built a LinkedIn engagement workflow using **Microsoft Copilot** to automate partner activity analysis
